

# Lake Fairfax Park

---

## ACTION

On March 27, 2022, Hiking Heroes visited and hiked at the Lake Fairfax Park! We were so glad to be able to see our members attend this month's hike, as we were also able to meet some of our new members. We found this event a great opportunity to collect some trash and enjoy a nice hike!

---

## EXPERIENCE

Our hike at Lake Fairfax Park was definitely a great experience. We got to see many astounding views near the lake as there were also a great mix between narrow and wide paths, throughout the trail. Even though a few pieces of trash were found near the end of the trail, we were quite delighted that the park was well-managed!

Although we only visited the trail, the members were able to see many of the other things that this park offered such as campgrounds, picnic areas, a carousel, and a waterpark. We were amazed to see how large this park was and the many public environments that they offered.

## MEMBER'S THOUGHTS

Despite the windy weather, the Hiking Heroes found this hike quite enjoyable. Through this hike, we were able to experience another successful event and the pleasing views allowed this hike to be a more remarkable experience!
