

Lake Fairfax Park Hike

ACTION

On October 29th 2023, Hiking Heroes went on a hike at Lake Fairfax Park. Throughout the trail, many of the members worked together to pick up trash from the ground and neatly dispose of them inside various hand-held trash bags!

EXPERIENCE

Our members gathered together at around 3:00 PM near the main center of the park. After all the club members arrived, we started to walk on the park's beautiful trail, which involved great views of forests, mountains, and Lake Fairfax!

Throughout the journey, many members had brought their own gloves and other trash-pickup tools which were used to clean up the park. Overall, the organization worked together to make sure that every trash spotted was immediately picked up!

MEMBER'S THOUGHTS

This hike was truly one of the most exciting hikes we have been to, as the autumn weather combined with the beautiful Lake Fairfax view made for the hike to be very intriguing. In addition, we had a lot of fun talking as a group while setting out on our mission to pick up all the litter from the ground! 😊
