

Wolf Trap Park Hike

ACTION

On September 1st, 2023, Hiking Heroes visited a park that we had gotten to know for many months: Wolf Trap Park. There, we visited the familiar grounds of the vast trail, picking up trash and cleaning up the path along the way!

EXPERIENCE

The hike started in the afternoon, where the calm and peaceful weather would help facilitate a fun and enjoyable hike. There, many members had brought their own trash bags, gloves, and other tools in order to safely and efficiently pick up trash along the trail.

Overall, this hike was quite short compared to the walks we have had before, however, the time we spent inside the area was long enough in order to thoroughly cover the ground for pieces of litter.

MEMBER'S THOUGHTS

During the hike, members exchanged lots of conversations and dialogue while searching the area for trash. This made the hike feel very lively, with the mood being noticeably sunny in correlation to the great weather! Wolf Trap Park was surely one of the best we have been to this year, and we look forward to what's in store for the future!
