

Billy Goat Trail A

ACTION

On June 18th 2022, Hiking Heroes went on a hike at the Billy Goat Trail A! The weather was very pleasant, with a light breeze and cool temperature. Although this trail was strenuous, the sightseeing provided great views of the Potomac River and wildlife, making this a very entertaining hike.

EXPERIENCE

The trail was full of twists and turns with steep rocks that prevented us from rushing through the path. However, the most challenging part was around the end, where a big vertical climb challenged hikers to utilize their athleticism to complete this trail, as you can see on the left. We found the frequent obstacles to be engaging and ultimately very fun to complete!

We picked up very little trash, and were happy to see that this wonderful trail was well-kept and quite eco-friendly!

MEMBER'S THOUGHTS

This trail showed us just how beautiful nature is, but also provided a stimulating experience for everyone. We were very satisfied with how little garbage was in this area, and were happy to share this experience with new members! This was a fantastic start to our summer break!! We would recommend this trail to anyone who is looking for an exciting and demanding hike.
