

Difficult Run Trail

ACTION

On August 15, 2020, the Hiking Heroes gathered once again for a hike at Difficult Run Trail. At this week’s meeting, President Kevin Son and the club joined to welcome new members Catherine Pak and Albert Kang. They also discussed new positions and possible club activities for the coming year.

To the left are pictures of the club and scenery that surrounded them as they trekked through the park.

EXPERIENCE

Low humidity levels made the trip an enjoyable morning venture, and the lush greenery that surrounded the hikers was a sight to see. The club even had a chance to step across splashing rivers throughout the hike! Although the rushing river was a treat to encounter, the broken beer bottles and caps that were found were disfavored.

MEMBERS’ THOUGHTS

As the members continued to collect trash while hiking, they noticed that the majority of garbage was found at parking lots and rest stops despite trash cans being present at each lot. Even more discouraging was the overflow of trash *around* the cans. It proved to show that people can produce more garbage than they care to clean up. Earth is a beautiful planet, but it needs your help to stay that way!
